~~RETURN TO CIA LIBRARY~~

25X1^{1.} No aircraft were parked on the landing field of the SPENDAL-BONSTED (E 53/Y 75) airfield. The hangars were closed and there was no flying. A Soviet Air Force sentry was posted at the caserne. No motor vehicles were seen. The watchtower on the southern edge of the landing field was dismantled.

25X12. [redacted] no air unit was stationed at the field. The air force detail now there had 30 to 40 men and had allegedly arrived after the old unit left the field.

25X1 ☐ Comment:

25X1 The information on the occupation of the field agrees with the reports [redacted] The fighter regiment previously stationed in STENDAL-BORSTEL is now in OTANLENBURG. The arrival of an air force detail makes it possible that the field will be re-occupied by an air force unit.
